DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or reasonably suggest a pressure-differential liquid raising system comprising a pressure differential system adapted to supply a first pressure differential between a system inlet at a first elevation for receiving liquid and at least one cell at an elevation between the system inlet and a system outlet at a higher elevation than the first elevation and to supply a second differential pressure between the first cell and one of a cell located downstream from the first cell.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 1-15, 17-24, 26-35, 37, 38 and 40-63 are allowed.
